Nationality:	Nigerian
Religion:	Christianity

SKILLS

- | | |
|-------------------------|-------------------------------|
| • User Interface Design | • Database Management |
| • Web Development | • Object-Oriented Programming |
| • System Design | • API Integration |
| • Software Architecture | • Coding Standard |

EXPERIENCE

COMPUTER OPERATOR

Lokoja, KOGI STATE

Johntech

March 2019 - July 2020

- Installed and maintained computer software applications and operating systems.
- Assisted in training other personnel in the use of computer systems and applications.

- Provided technical assistance to computer users, troubleshooting and resolving hardware and software issues.

SOFTWARE ENGINEER

Lokoja, KOGI STATE

Jitapplet

November 2020 - January 2023

- Developed and implemented software solutions utilizing agile methodology, JavaScript, HTML, CSS and PHP.
- Utilized object-oriented design principles to develop high-quality software components.
- Created user interfaces for complex software applications.
- Developed code and design for software components in adherence with system requirements.

SOFTWARE ENGINEER

Abuja, FCT

Zureth Technology

August 2025 – Till date

- Lead the design and development of scalable web and backend systems, improving application performance and reliability.
- Architect and implement RESTful APIs and microservices to support cross-platform integrations.
- Mentor junior developers through code reviews, pair programming, and technical guidance.
- Collaborate with product managers and stakeholders to translate business requirements into technical solutions.
- Optimize system performance through debugging, profiling, and refactoring legacy code.
- Implement CI/CD pipelines to streamline deployment and reduce release cycles.
- Ensure adherence to best practices in software development, including testing, documentation, and version control.

DATA PROCESSING OFFICER

Lokoja, KOGI STATE

Ministry of Innovation Science and Technology

March 2025 – Till date

- Manage and process large datasets to support policy development and administrative decision-making.

- Maintain data integrity by performing validation, cleaning, and regular audits of information systems.
- Develop and generate reports, dashboards, and visualizations for internal stakeholders.
- Support database management tasks, including data entry, updates, and backups.
- Collaborate with IT teams to improve data collection systems and workflow efficiency.
- Ensure compliance with data protection and confidentiality standards.
- Provide technical support and training to staff on data management tools and systems.
